

## *Horizontal type Automatic Carton Erector CHS-6801*

CHS-6801 is a Horizontal type Automatic Carton Erector. This Vertical Box Erecting Machine is useful to fabricate cases of different sizes into various shapes and seals the bottom of the box either with tape or with glue. Carton erecting by Multipack is widely used in Auto packaging line for bulk productivity in short duration.

### **Features**

- Auto Carton Erector adopts touch-screen panel, it is easy to operate the machine.
- Horizontal Auto Carton Erector is fit for automatic system; opening, forming, folding and sealing action accomplish at a time.
- Horizontal type storage can supply the un-opened carton anytime.
- Carton erectors are easy to adjust for different size carton.
- PLC controlled– easy to alter the program.
- Japanese pneumatic element.
- Humanizing designed, easy to operate.
- Assembly with safety signal device on the machine and the deficiency alarm at the carton storage.
- Suitable for large cartons or special mode.

### **Specification**

<b>MODEL</b>	<b>CHS-6801</b>
Power supply	1φ, 220V/240V , 50/60HZ
Power consumption	1000W
Carton size	L>250, W>220, L+W<770, 230
Tape width	2 " or 3 " (according to customer's need )
Cardboard Temporary stock	50~70 PCS
Capability	10~12 CTN/MIN (depends on carton's size and material)
Machine size	L=3700 x W=1750 x H=1915mm
Air compressor	6 KG/cm2
