

Vibro Sieving Machine For Spice Powder ZS-800

ZS vibrating Sifting Machine is composed of sieve box, vibration source and shock absorber. Vibration frame and screen box connected with rubber shock absorber fixed up and down, the production of centrifugal force, by the shock absorber control floating amplitude, so that the material has a downward shock throwing and downward stratified filtering process, so as to achieve a better classification screening effect.

Technical Parameters:

- Model No.: ZS-800
- Capacity(kg/h): 200-2500
- Dimension(L*W*H)(mm): 1100*950*1150
- Weight: 300
