

Botte Turntable YQLP-100

This unscramble bottle machine is the artificial bottles in the round table, wheel rotation will have to dial the conveyor belt into the bottle, into the filling machine for filling. Easy to use, simple operation is one of the indispensable link

Related equipment: the following equipment can be selected, can form unscramble bottle-filling-capping-labeling the production line

Technical Parameters:

- Applicable specifications 20-1000 ml
- Bottle diameter: ϕ 10- ϕ 80 mm
- The bottle height: 85-300 mm
- Production capacity: 0-100 BPM (speed adjustable)
- Voltage: 110v/220v/380v; 50hz/60hz
- Power: 0.5 kw Weight: 100kg
- Machine size: 1300*1000*1300mm
- Stainless steel: SUS304 material
