

CLM2000-A High Capacity Starchless Gummy Mogul Line

Sinofude developed the high-capacity starch less gummy mogul line worldwide, which can reach a max of 2000kg per hour with a max of 720 pcs gummies per stroke. This is ideal equipment for pectin-based or gelatin-based gummies production instead of the traditional starch mogul line. It can make Gummy candy with CBD or THC or Vitamin and Minerals.

Description

The high-capacity starch less gummy mogul line is ideal for producing good-quality gummies while saving workforce and space. Optional with a touch screen, servo, and PLC for automatic operation, the mogul molding system can make one-color, two-color, or multi-color center-filled gummies. The cooling tunnel includes an automatic chain type/air knife/brush de-molding system as an option.

Feature and Application:

The high-capacity starch less gummy mogul line was designed according to pharmaceutical machine standards, with a sanitary structure designed and fabricated entirely of stainless steel. The line can be equipped with UL certified or CE certified components for CE or UL certification, and FDA proved.

Technical Parameters

Model	CLM2000-A
Capacity (kg/h)	Upto 2000
Speed (n/min)	Upto 30 moulds/min
Candy weight (g):	Base on candy shape and size
Electric power (kW)	168
Chilling (option)	40HP
Compressed air	1.2m ³ /min
C-Air pressure	0.4-0.6 Mpa
Conditions	
1.Room temperature(°C)	20~25C
2.Humidity (%)	45~55%
Machine Length (m)	22m
Gross weight (Kgs)	18000
