

YB-220S/YB-280S Automatic Vertical Wet Towel Folding and Packaging Machine

This machine is mainly used for packing all kinds of wipes, non-woven fabrics and dust-free paper.

Performance features:

1. The machine can automatically complete the functions of folding, humidifying, slitting and packaging (printing date).
2. PLC control system, man-machine interface.
3. Beautiful machine, fast packing speed and stable performance.
4. The machine shell and contact parts are made of 304 stainless steel.

Technical parameters:

Model	YB-220S	YB-280S
Size of the wipe (unfold)	L80-220mm, W70-200mm	L80-220mm, W70-200mm
Tissue playing mode	Maximum: 8longitudinal plies,	Maximum: 8longitudinal plies,
	4 cross plies	6 cross plies
Making bag size	L45-150mm, W50-110mm	L45-150mm, W40-70mm
Width of film	≤ 220mm	≤ 280mm
Production capacity	50-90bags/min	100-180bags/min
Power	2.6 KW	4.3 KW
Total power	1ph 220V, 50/60Hz	1ph 220V, 50/60Hz
Machine net weight	600kg	650kg
Overall Dimension	L1000*W1500*H2000mm	L1000*W1600*H2000mm
