

TFP-SP 300 FFS Premade Standing Bag Powder Packaging Machine

Standing Bag Powder Packing Machine also called Standing bag powder filler or Stand-up Pouch powder Packer, is mainly used for powdery or fine granule products auto forming filling sealing by the premade bags.

Applications

Automated Premade Standing Bag Powder Packing Machine is the most common dosing equipment in the powder metering and powder packaging industry. It's suitable for filling and dosing a variety of powders or fine particles such as flour, coffee powder, milk powder, tapioca flour, seasoning powder, chemical powder and other materials into preformed standing bags or gusset bags or Doypack bags with auto forming and sealing. It's widely used in food, condiments, seasoning, coffee, beverage, pharmaceutical and other industries.

Technical Parameters

Machine Model	TFP-SP300
Metering method	Screw quantitative
Bag's application size	(L)100-350mm, (W)80-230mm
Production capacity	Max 50pcs/min
Filling volume	100-5000ml(by screw changover)
Gas pressure	6-8 kg/cm ² 0.3m ³ /min
Power supply	220/380V 50-60Hz, 3.5Kw
Machine dimension	2850x1500x175mm
Machine weight	800Kg
