

Single Chamber Vacuum Packing Machine

Single Chamber Vacuum Packing Machine is designed for vacuum packaging applications that want maximum taking away of air to extend shelf life. This large vacuum packaging machine provides the utmost in reliability, technology, and builds quality. These vacuum sealers are ideally suited for both food processors and industrial manufacturers.

Features:

- Efficient packaging
- Reliable functioning
- Durability

Application:

- Pharmaceutical industries
- Chemical industries
- Pesticide industries

Product Details:

Sealing Length(mm)	40-60 inch, 20-40 inch
Power (Kw)	1.5
Voltage(V/Hz)	220/50
Model No.	AVI46
Machine Type	Semi-Automatic, Automatic
Brand	AVI
Material for Vacuum Case	Stainless Steel
Sealing Width (mm)	10
Chamber	Single (SS Hull)
Air Charging Volume for Vacuum Pump (m3/h)	20
Vacuum pump power (W)	750
Lowest Pressure of vacuum Chamber (KPa)	1
