

T400 Automatic Die-forming Soft Milk Candy Machine

This production line is an advanced plant for making different types of soft candy, such as milk soft candy, center-filled milk candy, center-filled toffee candy, eclairs etc. It was introduced and developed to meet the increasing demands of the consumers for the candies: tasty, functional, colorful, nutritional etc. This production line can reach world advanced level both in appearance and performance.

Besides, this line has the following strong points:

- *Automatic control for vacuum cooking and aeration mixing process;
- *An unique design of aeration mixing system guarantees a high quality product;
- *Synchronized control for central-filling, extruding and rope sizing;
- *Chain style die for different shapes of candy;
- *Steel cooling belt is optional for better cooling effect;
- *Pulling machine is optional for pulled (aerated) candy requirement.

Technical Specifications:

Model	T400
Standard Capacity	300-400kg/h
Candy Weight	Shell:8g(Max); Central filling: 2g(Max)
Rated Output Speed	1200pcs/min
Electric Power	380V/60KW
Steam Requirement	Steam Pressure:0.2-0.6MPa; Consumption:250~400kg/h
Working Condition	Room Temperature: 20~25°C; Humidity: 55%
Total Length	16m
Gross Weight	5000kg
