

ML400/800 Chocolate Bean Machine

This machine mainly consists of chocolate holding tank, double roller forming machine, cooling tunnel and polishing machine. It can produce chocolate bean in different colors.

ML800 is full closed design, avoid operators touching the material, meet the food production sanitary standard.

Main feature:

- Cooling press forming type, can produce ball shape, oval shape, oblate shape chocolate beans etc.
- Low energy consumption, high capacity, products have good taste.
- Easy operation and high automation.

Machine specification:

Model	ML400	ML800
Capacity	100-150kg/h	400-600kg/h
Forming temp.	-30-28°C	-30-28°C
Cooling tunnel temp.	5-8°C	5-8°C
Forming machine power	1.5Kw	6Kw
Machine size	17800*400*1500mm	10800*2000*2700mm
