

BTB-400 High Speed Tea Box Cellophane Overwrapping Machine With Tear Type

This tea box cellophane overwrapping machine adopts multi-function digital display frequency conversion stepless speed regulation, PLC programming control technology, automatic box feeding and automatic counting, which is perfect for wrapping tea box, medicine box, perfume box, cigarette cartons, cosmetic box etc.

The work of the machine is completed by a series of cams inside the machine to drive various connecting rods and components. It adopts multi-function digital display frequency conversion stepless speed regulation, PLC programming control technology, automatic box feeding, automatic counting, and touch display to realize human Machine interface, pneumatic drop film; and can be connected with other production lines.

Application of tea box overwrapping machine:

This box overwrapping machine is widely used in the packaging of various single-piece large-box items or multiple small-box items (with gold cord) in the industries of medicines, health products, food, cosmetics, stationery, audio and video products.

Technical Data

Model	BTB-400
Packing Speed	30-50 box/min (According to your box size)
Max Packing Size	(L)100-350×(W)50-200×(H)30-120mm
Dimension	(L)2450×(W)925×(H)2250mm
Weight	1200 kg
Total Power	6 kw
Voltage	220 V 50 Hz Single-phase
Machine material	Contact surface 304 stainless steel
